PROFESSIONAL EXPERIENCE

Bala Infotech / Web Development Intern

Meerut, India | Mar 2026 – Present

- Building responsive, cross-browser-compatible websites using HTML5, CSS3, and JavaScript (ES6+) for diverse client projects in a full-service digital marketing and web development agency.
- Developing dynamic backend solutions using PHP and MySQL, including relational database design, CRUD operations, and server-side business logic for production-level client web applications.

SoftCure Technology LLP / Web Development Intern

Meerut, India | Oct 2025 – Feb 2026

- Developed dynamic, data-driven web modules using PHP, AJAX, jQuery, and MySQL for live client-facing applications; built and integrated REST-based features enabling seamless asynchronous data flow.
- Wrote optimized, indexed MySQL queries for CRUD operations, improving database performance; created responsive mobile-first UI components with jQuery and modern CSS, enhancing UX consistency.
- Debugged complex UI/logic issues, reduced system bottlenecks, and improved overall application performance under senior developer mentorship on real production client projects.

HCL Tech (UPSDM) / Java Web Development with AI Intern

Oct 2024 – Mar 2025

- Worked with MySQL, REST APIs, and front-end technologies in an enterprise environment; collaborated in a 5-member cross-functional team to architect and build a real-world AI-integrated web application.
- Applied object-oriented Java programming, REST API integration, agile sprint planning, and SDLC best practices throughout the project lifecycle. [Certificate Link]

PROJECTS

CareerAI – Full Stack AI Career Recommendation Platform

GitHub Link

Python, Scikit-learn, HuggingFace, MERN, Next.js 14, React 18, Node.js, Tailwind CSS, OpenAI API, REST APIs, Radix UI, Recharts

- Architected and developed a full-stack SaaS web application from scratch using Next.js 14 App Router with server and client components for optimized performance and SEO-friendly rendering.
- Built RESTful API routes in Next.js for resume parsing, skill analysis, and AI-powered job matching using OpenAI API integration for intelligent career guidance.
- Designed and implemented a multi-tab interactive dashboard with real-time data visualization using Recharts for career readiness tracking and skill gap analysis.

Wanderlust – Full Stack Vacation Rental Listing Platform

GitHub Link

React.js, Node.js, Express.js, MongoDB, Mongoose ODM, Tailwind CSS, EJS, JWT Authentication, REST API

- Built a production-ready, full-stack Airbnb-inspired platform with JWT-based authentication, user sessions, and RESTful APIs covering complete CRUD for listings, users, and bookings.
- Engineered dynamic React.js frontend with Tailwind CSS for fully responsive design; implemented server-side logic with Express.js and Mongoose ODM for MongoDB schema design and data validation.
